

No. of Functional Features Included in the Solution

Date	26 June 2026
Team ID	XXXXXX
Project Name	No.of Function Feature Included in the Solution
Maximum Marks	5 Marks

Functional Features Overview:

It includes the implemented features, their purpose, associated modules, current implementation status, and their contribution to the successful operation of the application.

S.no	Feature Name	Feature Description	Module / Component	Status (Done / In Progress / Pending)	Marks Contribution
1	User Registration	Allows users to create a new account to access the application.	User Management	Done	0.5
2	Secure Login	Authenticates users before accessing the system.	Authentication	Done	0.5
3	Applicant Information Entry	Collects applicant details such as income, loan amount, employment, and credit history	Input Module	Done	1
4	Loan Approval Prediction	Uses a trained Machine Learning model to predict loan approval status.	ML Prediction Engine	Done	1
5	Result Generation	Displays loan approval or rejection with prediction outcome.	Result Module	Done	0.75
6	Input Validation	Checks for missing or invalid values before processing the request.	Validation Module	Done	0.5
7	Prediction History	Stores and displays previously generated prediction records.	Database Module	Done	0.5
8	User Logout	Ends the user session securely after use.	Session Management	Done	0.25

Feature Summary:

Metric	Count / Value
Total Features Planned	8
Total Features Implemented	8
Core / Must-Have Features	5

Additional / Nice-to-Have Features	3
Features Tested & Verified	8

Feature Category Breakdown:

S.No	Category	Features in Category	Example Features
1	User Interface (UI)	3	Login Page, Registration Page, Loan Application Form
2	Backend / Logic	2	Loan Prediction Model, Input Validation
3	Database / Storage	1	User Information Storage
4	API / Integration	1	Flask Backend Integration
5	Security / Authentication	2	User Login Authentication, Logout
