

Scalability & Future Plan

Date	01 July 2026
Team ID	XXXXXX
Project Name	Scalability and Future Plan
Maximum Marks	1 Mark

Scalability & Future Plan:

The system can be enhanced to handle more users, larger datasets, and advanced machine learning models while ensuring reliable and accurate loan eligibility predictions.

Current System Limitations:

S.No	Limitation	Impact	Priority to Address (High / Medium / Low)
1	Limited training dataset	Prediction accuracy may decrease for new data	High
2	Local data storage	Difficult to manage large amounts of data	Medium
3	Basic security features	Increased risk of unauthorized access	High

Scalability Plan:

S.No	Scalability Aspect	Current State	Proposed Upgrade / Solution
1	User Load	Supports limited users	Deploy the application on cloud servers with load balancing
2	Data Storage	CSV/local database	Upgrade to MySQL or PostgreSQL cloud database
3	Performance	Standard ML prediction	Optimize the ML model and improve response time
4	Security	Username and password login	Add OTP verification, data encryption, and secure authentication

Future Roadmap:

Phase	Planned Feature / Enhancement	Target Timeline	Expected Impact
-------	-------------------------------	-----------------	-----------------

Phase 1	Improve machine learning model accuracy	2 Months	Better prediction accuracy
Phase 2	Cloud deployment of the application	3 Months	Improved scalability and accessibility
Phase 3	Mobile-friendly web application	4 Months	Better user experience on all devices
