Project Name	Smart Lender – Loan Approval Prediction System
Maximum Marks	2 Marks

Customer Journey Map

The customer starts by exploring available loan options and checking their eligibility. After selecting a suitable loan, they provide personal and financial details, upload the required documents, and submit the application. The Smart Lender system analyzes the information, predicts the loan approval outcome, and displays the final decision with recommendation.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	Visits the Smart Lender website • Explores loan options • Checks eligibility requirements	• Creates an account • Enters personal and financial details • Uploads required documents	Tracks application status • Views prediction result • Takes action based on the decision
Touchpoint <i>What part of the service do they interact with?</i>	Home Page • Loan Information Page • Eligibility Checker	Registration Form • Loan Application Form • Document Upload Portal	Result Dashboard • Notification Page • Recommendation Section
Customer Thought <i>What is the customer thinking?</i>	Which loan is best for me? • Am I eligible? • What documents are required?	Is my information accurate? • Have I uploaded all documents? • Will my application be accepted?	What is my loan status? • Why was my loan approved or rejected? • What should I do next?

Customer Feeling <i>What is the customer feeling?</i>	Curious and hopeful about getting financial support.	Excited if approved or disappointed if rejected, while expecting clear guidance.	Excited if approved or disappointed if rejected, while expecting clear guidance.
Process Ownership <i>Who is in the lead on this?</i>	Customer explores the platform while the Smart Lender system provides loan information and eligibility guidance.	The Smart Lender ML model generates the prediction, and the system displays the final result.	The Smart Lender ML model generates the prediction, and the system displays the final result.
